Trellis Net

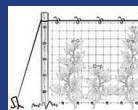

Made in Italy

Mesh for vegetables and flowers

It is the plastic mesh that has revolutionised the cut flower and climbing vegetable cultivation system. Produced from top quality polypropylene and made with the exclusive dual stretching extrusion process that ensures optimum strength and duration. It has replaced metal meshes, iron trellises and perishable materials such as bamboo canes or wood, traditionally used to create support and separation frames.

UV treated
Resists bacteria, chemical agents and mould
Does not rust
Easy to install
