GROW ROOMS

Plants are grown to full potential then moved into a flowering room to begin the transition into the flowering stage. This is achieved by simulating Fall which helps the plants begin budding. High density of plants along with the need for healthy airflow is crucial for a successful grow.

The right equipment to improve product yield.

MOBILE BENCHES

We offer custom greenhouse benches; both indoor and outdoor. Benches can be purchased with optional troughs or “ebb and flood” inserts.

This provides growers with a solution for automated irrigation, cutting down on manual labour and keeping money in the grower’s pocket.

CURTAIN SYSTEMS

Curtain systems provide shade protection for plants in the summer and prevent heat loss during the colder season.

Black out curtains are available for photo period control and light emission prevention.

BUN PAN TRAYS – ALUMINUM

Glazed Silicone, Aluminum, 18"x26"

Glazed silicone reduces product from sticking to the pan.

Concerned of rust/corrosion?

Use food grade silicone spray to keep the pans from deteriorating over time.

Be sure to dry them immediately after washing.

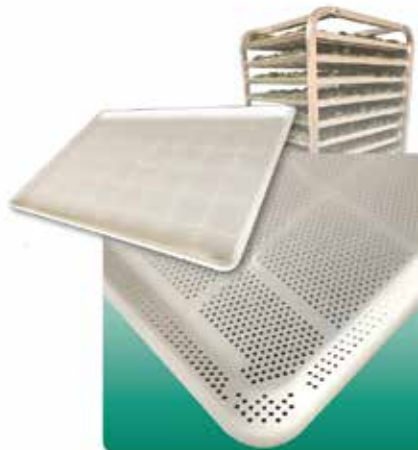

BUN PAN TRAYS – PLASTIC

Plastic, 18"x26"

Use durable, track ready food grade plastic trays fit for any size bun pan rack.

Easy to clean,
durable, and safe.

FISKAR MICRO TIP PRUNERS

PRUNERS TO DO THE JOB RIGHT

The Non-stick Softgrip® Micro-Tip® Pruning Snip makes deadheading, trimming and shaping plants easy -- so easy, it's earned the Arthritis Foundation's Ease of Use Commendation.

An Easy Action™ design automatically opens the blades after each cut to help make cutting easier. Stainless steel blades feature a precision-ground edge that stays sharp longer and cuts all the way to the tip for clean, healthy cuts on plants. In addition, blades are enhanced with a special non-stick coating to help reduce jamming and resin buildup when cutting sticky materials. The handle features Softgrip® touchpoints for a secure, comfortable grip.
